Profile: <https://edgardo-gutierrez.com/>

PROFILE

Software and infrastructure engineer with 15+ years across IT, enterprise and public-sector delivery. Combines Azure, Terraform, AKS and .NET engineering with Scrum facilitation, Product Ownership and OKRs. Experience includes cloud security and governance controls, team capacity planning and projects aligned with SBS requirements.

CORE COMPETENCIES

Enterprise Grade engineering: Microsoft Azure · Terraform · Azure Kubernetes Service (AKS) · Azure DevOps · CI/CD · .NET / C#

Agile leadership: Scrum · Product Ownership · OKR · Stakeholder Management · Capacity Planning · Agile Delivery

RECENT EXPERIENCE

Nagnoi LLC | Contractor · Cloud & infrastructure

Nov 2025 — present · Canada

- Design and automation of Azure infrastructure with reusable Terraform modules, versioned environments and AKS high-availability strategies.
- Private networking, RBAC, least privilege, managed identities, Key Vault and observability; GPU-backed inference with vLLM.

Nagnoi LLC | Senior Lead Software Engineer

Mar 2022 — Oct 2025 · Puerto Rico

- Led software teams and Azure DevOps deployment automation for government web applications.
- Defined and refined OKRs, prioritized user stories and connected release planning with team velocity and capacity dashboards.

Nagnoi LLC | Software Development Contractor

Mar 2021 — Feb 2022 · Peru

- Contributed to cloud migration and delivery of the Portal Informativo Ciudadano and Puerto Rico Opioids Dashboard.
- Applied Azure DevOps automation to development, testing and deployment.

Edgardo Gutiérrez Rodríguez

EARLIER EXPERIENCE

Indra | Project Specialist

Nov 2020 — Feb 2021 · Lima, Peru

- Planning, risk analysis and resource coordination for Vida Ley / Vida Ley Cesantes, including work aligned with Peru's SBS requirements.

Delaware | Web Developer → Systems Analyst → Product Owner → Project Lead

Dec 2015 — Nov 2020 · Lima, Peru

- Product Owner for Hidrandina: product vision, stakeholder alignment, User Story Mapping, backlogs and release plans (2018-2020).
- Facilitated Scrum events and supported teams and Product Owners as Project Lead; automated delivery with Azure DevOps and worked on university portals.

Earlier experience: project leadership at Vocem (2014-2015), systems analysis and .NET development at Atento (2012-2014), and IT infrastructure support at Moore Stephens International (2009-2012).
